

**2023**

**WOMEN'S WORKWEAR**

A woman with curly hair, wearing a grey zip-up hoodie with a pink interior lining, a black top, and blue jeans, stands in a wooden barn. She is smiling and has her hand near her chin. The background shows wooden beams and a rustic setting.

2008 was the year of a great encounter, one to create a shock wave in the construction world. This is back then that Marie-Lise Pilote and Paragone inc. teamed up to create safety footwear and work clothing for lady. When the products first appeared in stores in the Spring 2009, it caught the eye with colorful work boots, gloves with red painted nails and a never before seen range of work clothing designed to fit women. It was the beginning of a new era.

13 years later, this innovative line is now the reference in women's work footwear, clothing and accessories.

Created by women for women, P&F is clearly fulfilling a need. It is now distributed in hundreds of stores in Canada and worldwide.

HOW TO TAKE MEASUREMENT?

- **Chest**: Measure under your arms around the fullest part of your chest.
- **Natural waist**: Measure your waist at the narrowest part of the torso, where you are able to bend.
- **Hips**: Stand, feet together, and measure around the fullest part of your hips.
- **Inseam**: Measure at crotch seam, down to inside bottom of pant leg.

MEASUREMENT IN INCHES.

EXHIBITIONS

It is important for P&F Workwear to promote its collection. Consumer shows are great events to meet people and show the products. It helps to stay connected on the needs and new tendencies. It also provides P&F Workwear a good way to guide the consumers through its retail stores network. Stay tuned on our show schedule and benefit from the offered visibility!

You can benefit from the visibility of our shows in your area.

SOCIAL MEDIA
